neodisher® SBR extra
Detergent for use in bedpan washers
Liquid concentrate

Main fields of application:
For the automated cleaning of bedpans and urine bottles in bedpan washers.

Characteristics:
neodisher SBR extra is a liquid detergent in a low-foam formulation. It even removes stubborn stains such as saponified lime residues and residues from cytostatic agents from human excrements. neodisher SBR extra can be used in water of any hardness.

Application and dosage:
neodisher SBR extra can be used in bedpan washer disinfectors that are equipped with a dosing pump for detergents. The dosage is 1 - 3 ml/l depending on the water hardness in the cleaning step.

neodisher SBR extra can also be used in suitable machines types for the complexing of the water hardness and rinsing.

Rinse out dosing system including suction hose with water before changing product. Observe the washer disinfector’s manufacturer’s instructions for use.

Do not mix with other products.

For professional use only!

Technical data:
Density (20 °C): 1.2 g/cm³
pH-range (determined in deionised water, 20 °C) 1 - 3 ml/l: 11.2 – 11.5
Viscosity (concentrate, 20 °C): < 50 mPa s

Ingredients:
Ingredients according to Regulation (EC) No 648/2004 on detergents:
< 5 % phosphonates
15 - 30 % EDTA

CE-marks:
neodisher SBR extra conforms to the European directive 93/42/EC, Annex I concerning medical devices.

Storage information:
Always store at a temperature range between 0 and 30 °C.
Usable for 3 years when stored as recommended. For expiry date refer to the stamp mark on the label behind the hour glass symbol.

Hazard and precautionary statements:
For safety information see EC safety data sheets. These are available at www.drweigert.com under the category “Service”.

Dispose only when container is empty and closed. For disposal of product residues, refer to the Material Safety Data Sheet.
