Empower Yourself
Nonin Medical, the inventor of fingertip pulse oximetry, introduces the GO₂ fingertip pulse oximeter. The affordable GO₂ empowers you with the knowledge of reliable oxygen saturation and heart rate values without compromising the quality and accuracy that have made Nonin the most trusted name in fingertip pulse oximetry.

A Message to Oxygen Users
With Knowledge Comes Peace of Mind
Having the necessary information is essential to successfully managing your oxygen to stay within your clinician-prescribed oxygen saturation and heart rate range. With GO₂, you’re in control:
- Adjust your oxygen to meet your daily activity levels.
- Get instant feedback on the effectiveness of your breathing techniques.
- Improve communication with your clinician using trusted Nonin Technology.

For oxygen patients who love to travel, the new FAA rules allow the use of Portable Oxygen Concentrators (POCs) on commercial airlines.

Go Further! Independence Restored.
A chronic lung disease diagnosis often requires that adjustments be made in your daily activities. However, it does not have to mean a life of limitation! Whether you’re looking for peace of mind, to go out for a night at the movies, or to up your activity level by walking those extra blocks around the neighborhood — the GO₂ fingertip oximeter is the perfect companion! Wherever you decide to go, GO₂ tucks away in your purse or pocket and provides the assurance that you are within your prescribed oxygen saturation and heart rate range — anywhere, anytime.

"I won’t leave home without it."
— Edna Fiore, COPD Patient/Advocate

Specifications
- Oxygen Saturation Display Range: 0% to 100%
- Pulse Rate Display Range: 18 to 321 pulses per minute
- Oxygen Saturation Declared Accuracy: 70-100% SpO₂ ± 2 digits
- Low Perfusion Oxygen Saturation Declared Accuracy Range (Arms*): 70-100% SpO₂ ± 2 digits
- Pulse Rate Declared Accuracy Range (Arms*): 20-250 BPM ± 3 digits
- Low Perfusion Pulse Rate Declared Accuracy Range: 40-240 ± 3 digits
- *± 1 Arms represents approximately 68% of measurements.

Temperature (Operating): +41°F to +104°F (5°C to +40°C)
Storage/Transportation: -22°F to +113°F (-30°C to +40°C)
Device temperature will not exceed 41°C as measured in a controlled environment.
Humidity (Operating): 10% to 90% relative humidity, non-condensing
Storage/Transportation: 10% to 95% relative humidity, non-condensing

Operating Altitude: Up to 40,000 feet / 12,192 meters
Battery Life (Continuous): Approximately 2,400 spot checks based on ~21 hours of operation using one AAA-size alkaline battery, calculated at 30 seconds per use.
Battery Life (Storage): 6 months minimum

2 year warranty.
Backlit LCD for low light viewing.
Intended for Home Health Care Only.
Specifications are subject to change without notice.

Three colors to Choose from

An oximeter gives the patient immediate feedback, a lot of reassurance — reduces anxiety.
— Patty Koff, RRT

With GO₂ — You Can!

Empower Yourself
Nonin Medical, the inventor of fingertip pulse oximetry, introduces the GO₂ fingertip pulse oximeter. The affordable GO₂ empowers you with the knowledge of reliable oxygen saturation and heart rate values without compromising the quality and accuracy that have made Nonin the most trusted name in fingertip pulse oximetry.
Go Ahead and Get Active!
A comprehensive fitness program is essential to maintaining lung health and quality of life if you have been diagnosed with a chronic lung disease. The highly durable GO2 fingertip oximeter is the perfect oxygen saturation and heart rate monitoring device to complement your clinician-devised exercise program. Know when to increase your liter flow in an instant! Compact and easy-to-use, simply place GO2 on your finger for accurate oxygen saturation and heart rate feedback. Go further with GO2!

Quality and Support DO Matter
With so many throwaway products available these days, it's important to choose a product that not only is consistently accurate, but is also built to last. At Nonin, we are dedicated to providing the highest quality products available at a great value.

A Message to Clinicians
Trusted Accuracy
Accurate reading of SpO2 values is among the most important factors for successful management of LTOT care. With the GO2 fingertip oximeter, engineered with Nonin Medical’s proven PureSAT® SpO2 technology (the same technology that’s in our medical grade oximeters), you can always trust the oxygen saturation and heart rate values reported by your patients. With over 22 years of manufacturing, engineering and research experience, we have a long-standing reputation for excellence. In fact, 96% of pulmonary rehab facilities use Nonin.

Partnering with your Patients
Having a fingertip oximeter that is always accurate helps patients stay within their prescribed oxygen saturation and heart rate levels — enabling better management of their care by giving them the information they need to adjust their oxygen to meet their activity levels. With the power and confidence to manage their oxygen, the GO2 fingertip oximeter empowers patients to respond in situations where they find themselves not feeling 100%. Visit www.go2nonin.com to learn more about how the GO2 can benefit your patients.

Promoting Exercise Compliance
With the reassurance of the GO2 fingertip oximeter by their side, patients will be more apt to comply with an exercise regimen.

Empowering Patients to Take Control of their Lives
A dependable and accurate tool like the GO2 fingertip oximeter will empower patients with the knowledge and confidence that they can manage this disease and still live a fulfilling life.
